***The Model 113: The snackshop that excels in every dimension.***

# 113 Snackshop

## Model 113 Capacities.

Our 113 Snackshop is a state-of-the-art machine that prefers to be judged by its revenue-earning power. It's a prime example of Automatic Products' breakthrough thinking and vending industry leadership. The 113 offers **dollar coin payout capability**, a programmable scrolling display, a swing out service panel, and 24 or 115 volt changers and bill validators — along with all these options:

**Vantage™ styling** minimizes dust build-up, while providing a sleek, contemporary appearance.

**Convertible shelving** allows for the most advantageous combination of snacks and candies. (Optional dual snack spiral capability also available.)

**Chiller unit** lowers the internal temperature by 20+ °F to protect and extend product quality.

**Automatic shutdown** (standard feature) lets you program the machine to shut down during designated time periods.

**Debit card acceptance** makes purchasing easy for card-holding customers.

**Gum and mint dispensing system** makes it more convenient for the operator to stock, service and inventory product.
