

# 120 SERIES MODEL 127 EXPANDER MERCHANDISER

## BIGGER IS BETTER.

By combining an APi 127 Expander with your Host 120 Series Snackshop, you create the biggest and best snack merchandiser on the market. The advantages are huge:

- Attract more end-users with greater selectivity and snack capacity.
- Reduce route labor without sacrificing sales.
- Run your versatile Expander from any Host 120 Series merchandiser or 310 Control Module.
- Maximize sales by using the configuration that best suits your individual locations. (See below.)

Our newly-modified 120 Series cabinet back ensures quick 'n' easy 127 Expander connection to a host Snackshop.

18	18	18	18	15

## A BETTER SPIRAL, BIGGER SALES.

MORE SLOTS MEAN MORE \$\$\$\$

Our spirals maximize capacity! Each APi spiral has one additional product slot compared to the industry average for spirals of the same length.

### The Expander: It's Built To Last by APi.

As always, APi has built the 127 Expander to withstand heavy usage day after day ... with less breakage, less downtime, and less maintenance. APi cuts no corners in building the most reliable machines in the industry, so you can fully concentrate on growing your bottom line.

It's time to think big. It's time to maximize your locations and expand your business with the Model 127 Expander.
