Some early production Showcase 143 and Showcase 144 Merchandisers were produced with the Gum and Mint Display Trays mounted in the Product Delivery Deflector inside the Cabinet. To improve visibility of the Gum and Mint Display, these Display Trays are now mounted in the Delivery Pan Assembly of the Door Assembly.

If the replacement Door Assembly or the replacement Delivery Pan Assembly is installed on an early production Merchandiser which has Gum and Mint Display Trays

mounted inside the Cabinet, remove the four Display Trays from the Cabinet and install them in the Delivery Pan Assembly as shown in Figure .

NOTE

If desired, a Product Delivery Deflector which is equipped with a SOLD OUT label but which does not have cut-outs for the Gum and Mint Display Trays may be purchased from National Vendors Parts Department to replace the early production type Product Delivery Deflector. Order part number 143-1055.
