## **INSTALLING A BASE PLATE AND ACCESSORY ASSEMBLY ON ALL MODEL MERCHANDISERS**

Refer to Figure 1 while completing the following procedure:

1. Secure two base plate brackets to the bottom of the merchandiser using the two #8-32 screws.
2. Insert the short arms of the slides into the hinged tabs of the base plate. Position the slide so the notch near the short arm is on the bottom side.
3. Insert the long arms of the slides into the base plate brackets.
4. Insert and secure a cotter pin through the hole in the back of each of the slides.
5. Push the base plate toward the merchandiser cabinet. The front tabs of the base plate brackets should seat in the notches in the long arms of the slides.

### **TYPICAL BASE PLATE INSTALLATION**

**Figure 1**

### **CAUTION**

The base plate mounting brackets are subject to damage when moving the merchandiser with a fork lift.

**Remove the base plate mounting brackets prior to moving the merchandiser with a fork lift.**
