

KIT PART NUMBER 3151114

INSTRUCTIONS FOR INSTALLING A REPLACEMENT ICE BANK CABINET CONTROLLER IN A COLDTRON

**CHECK THE PARTS RECEIVED IN THE KIT WITH THE PARTS LIST
IN THESE INSTRUCTIONS. IF ANY PARTS ARE MISSING,
CONTACT NATIONAL VENDORS' PARTS DEPARTMENT IMMEDIATELY.**

Read these instructions carefully before installing the kit.
Retain these instructions for part numbers and for future reference.

This kit contains the following:

PART NUMBER	DESCRIPTION	QUANTITY
3151074	Repl. Cab. Cont. - 315 W/Prog. Eprom	1
3151119	IC Assy. - EL IB - MCU Prog. Eprom	1
3151115	Instructions - Installation	1

CAUTION

Electrostatic Discharge Control Procedures
Should Be Observed While Handling The Eprom
Or The PC Board.

WARNING

Disconnect The Merchandiser From Its Power
Source Before You Begin The Procedure Below.

Install the Ice Bank Controller PCB per the following instructions:

1. Examine the connector channel on the back wall of the merchandiser.
Locate the red connector labeled "ICE BANK".

NOTE

If your merchandiser serial number is 315-020773 or higher, you must replace the EPROM on the controller board supplied in the kit with the 3151119 EPROM. If your serial number is 315-020772 or lower, you use the new controller board as is. However, if you have changed the cabinet harness in your merchandiser to the new cabinet harness you will need to switch the EPROM's according to the directions at the beginning of this note. Refer to Figure 1 to identify your harness if you are in doubt about the configuration.
