

The fresh-ground, fresh-brewed coffee it makes can stimulate productivity.

There's nothing like a great cup of coffee to pick up people's spirits. And their productivity.

That's why Rowe's new Model 425 Fresh Brew/Bean Grinder coffee vendor grinds coffee beans to order and fresh-brews each cup.

But that's not all that's new. The

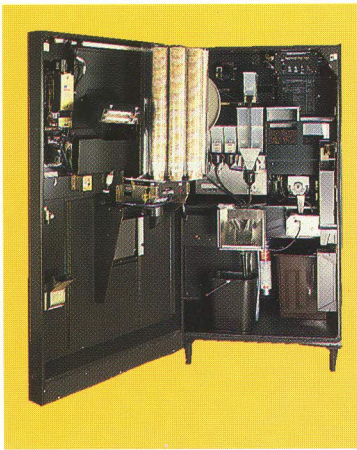

new Model 425 FBG also features a new half-portion option and a new artificial sweetener option.

Once your employees know they can enjoy the unmistakable aroma of fresh-brewed coffee, the unmistakable sound of fresh beans being ground, and the unmistakable taste

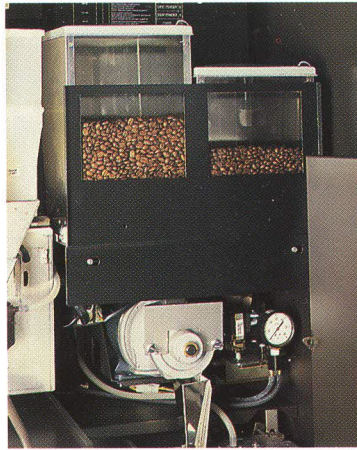

of fresh coffee, it's bound to have a positive effect on morale.

Read the details on the back of this flyer. We think you'll agree, when you offer your people a perfect cup of coffee, productivity is sure to perk up.

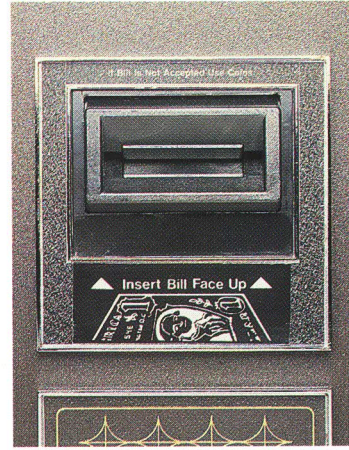

Rowe Model 425 FBG
Fresh Brew / Bean Grinder.

Larger cabinet means easy access to all components, easier maintenance.

Dual hopper unit grinds and fresh brews both regular and decaf; single hopper grinds and fresh brews regular only.

Rowe's bill acceptor, an optional extra, offers added convenience and additional sales.

Expanded option selection lets user choose regular-strength or extra-strength coffee; half, regular or extra portion of sugar or sweetener and/or lightener.

FEATURES:

- Grinds coffee beans to order and fresh brews one cup of coffee at a time.
- Expanded option: push-button selector for regular or extra-strength coffee lets customer "create" drink to their individual taste.
- New half-portion option permits customer to choose half, regular or extra portion of sugar or sweetener and/or lightener.
- New artificial sweetener option permits customer to select sugar or low calorie sweetener.
- "Soup" selection can be changed to either "Gourmet Coffee" or "Hot Cider" as desired.
- Coffee-Mat brewer provides better extraction. More cups, more profit per pound.
- Cup dispenser, with reliable Lisern ring, tilts for easy access. Easy to load.
- Easily accessible, air-tight hoppers are easy to load; simple to disconnect and remove.
- Coin mech mounted on cabinet, not door, for maximum security.
- Dual exhaust system maintains dry interior, preserves product freshness.
- Control box designed for easy removal and replacement.
- Self-contained microprocessor system designed to regulate timing and portion control for perfect beverage mix.
- Special circuit provides service light and power while remainder of vendor is disconnected.
- Powder chassis front easily removed for access to motors and valves. All motors thermally protected.
- Molded plastic floor easily removed for fast clean-up.
- Polysulfone tank and float make water system worry-free. Never needs deliming. Comes with 5-year warranty on tank.
- ACCU-VEND® hopper system ensures consistent flavor. Easy to reach. Product protected with tight closures and lids.
- Automatic sanitizer does job in 3½ minutes. Just press a button and pour brewer cleaner into chamber.
- Each product dispensed in its own mixing bowl. Prevents flavor crossover.
- Rowe's CBA Bill Acceptor optional.
