AUTOMATICS THE NEW "STANDARD OF EXCELLENCE"

# DIXIE-NARCO *Automatic Bottle/Can Vender DN 246-6*

## SPECIFICATIONS

Height	79"
Width	36 $\frac{3}{4}$ "
Depth	24 $\frac{5}{8}$ "
No. of Selections	Six
Capacity:	246 Regular Bottles 210 12 oz. Cans
Shipping Weight:	738 lbs.

## FEATURES

Fully automatic. Vends bottles and/or cans. No tools kits or parts needed to convert.

Three second vend assures maximum availability during rush periods.

New zinc coated shell plus hot galvanized base and door provide unmatched resistance to corrosion. Paint is literally bonded to cabinet at 340°F with new thermal metal treating process.

High efficiency, foamed-in-place polyurethane provides rigid walls and *permanent* vapor barrier. Eliminates sagging and voids. Makes cabinet stronger and more compact.

Tempered glass sign has greater strength than plastic signs. Will not burn. Fired-on ceramic colors are permanent—no fading.

Unitized mechanism with "Power-Gard" motor for each stack.

Dixie-Narco electrical "by-pass" maintains positive vend for each column independent of all others.

Product in vend position is free of weight of stack.

Long life, shock-proof, neon resistor type sold-out tubes far outlast filament bulb—cut service costs.

Heavy duty access door plus screw-in lock make this our most damage resistant cabinet.
