B3639901**Cup Station Revision****September 10, 1999**

The cup delivery station on the Twin Drink Center has been revised with the addition of cup ramp part # 363-3033. This revision was made to better facilitate the dispensing of large cups from the left hand chute position.

The cup ramp can be added to earlier merchandisers by ordering kit part # 363-0074 from the National Vendors Parts Department.

This change started with the following machine serial #'s

Domestic **364-010279**

Foreign **363-080193**

This change is being implemented as part of our ongoing product improvement process and is not a required update to older machines. If the current owner of a machine chooses to update a machine with this improvement, it is solely at their discretion. Parts are available for purchase from the National Vendor Parts Department and any labor to install or modify any existing equipment is the owner's responsibility.
