CFT-54

## CHOOSE FROM NARCO'S FULL LINE OF BOTTLE COOLERS

If you want to step above the ordinary in top-quality bottle coolers for 1966, NARCO is the name to remember. Any one of Narco's open-top coolers gives you so much more at no extra cost to you:

- ★ Stainless steel foamed counter tops.
- ★ Stainless steel foamed sliding lids are standard equipment on all four NARCO coolers.
- ★ Easy-to-remove-and-empty crown catchers.
- ★ Completely foamed in place insulation. Cooler walls and lid rails are foamed in one operation giving a rugged and sturdy single unit construction.
- ★ The CFT-21S, CFT-30, CFT-40 and CFT-54 refrigeration systems are completely removable. All four feature the exclusive Tecumseh compressor system.
- ★ NARCO'S exclusive cooling system design features controlled forced air cooling that chills top bottles first. Super cooling capacity assures efficient operation in prolonged high temperatures.

The smart, new CFT-21S features a rugged steel pedestal type enclosure at the bottom of the cabinet as STANDARD EQUIPMENT. Some other similar models offer this feature at a substantial extra charge. For spectacular sales success in sixty-six, make your bottle cooler selections from the big four by NARCO: the CFT-21S (with a capacity of 21½ cases, standard size bottles of Coca-Cola), the CFT-30 (with a capacity of 30 cases, standard size bottles of Coca-Cola), the CFT-40 with a capacity of 40 cases, standard size bottles of Coca-Cola), the CFT-54 (with a capacity of 54 cases, standard size bottles of Coca-Cola).
