Issue: 102

Subjects: Snackvender Glass Size - 160/171/490/493
Part number Change
Loading Hints

Question: What are the deminsions of the glass used in the Snackvenders?

The deminsions are width 2 1 43/64"
 length 42 29/32"
 thickness 3/1 6"

Part Number Change: The "Y" connector used in the coffee and coffee/chocolate modules has been changed from part number 475 1066 to 475 1092 "Y" Assembly - An. The change was to eliminate having two very similar parts in stock. You should make a note in your Model 493 Parts Manuals.

Loading Hint: When loading narrow items in the candy and some times the snack columns use the Spacer Rails. part number PYOO3578. The Spacer Rails help hold the products un in position to ensure proper dispensing.

Please give this information to your Service Department so they can update their Service Manuals.
