

CO²
CYLINDERS

NORRIS

These are Norris CO₂ Cylinders. They are all Norris inside and out — top to bottom. Every Norris cylinder is totally a Norris product. From selected raw steel to finished, delivered product, Norris has total control. The life span, the efficiency and the safety of the cylinder depend on this control. Norris knows what goes into every cylinder — and you know what you can expect from every Norris Cylinder. ■ If what you really want is a good through-the-years-to-come CO₂ cylinder investment then remember that Norris cylinders are the controlled cylinders.

2½ lb. 5 lb. 10 lb. 15 lb. 20 lb.

SPECIFICATIONS AND PRICES CO₂ CYLINDERS — ICC 3AA 1800

CO ₂ CAPACITY (LBS.)	(OD) OUTSIDE DIAMETER	(H) CYLINDER HEIGHT WITHOUT VALVE	CYLINDER HEIGHT WITH VALVE	(T) WALL THICKNESS	MIN. CAPACITY (CU. IN.)	WEIGHT* WITHOUT VALVE (LBS.)	VALVE CONNECTION	PRICE WITH VALVE
2½	3⅞"	14½"	18"	.085"	109	4¾	½" NGIT	\$10.75
5	5¼"	13⅞"	17⅞"	.096"	214	9	½" NGIT	\$12.00
10	6¾"	16⅞"	19⅞"	.124"	428	17	1" NGIT	\$16.50
15	6¾"	22⅝"	26⅞"	.124"	632	21½	1" NGIT	\$19.00
20	7¾"	23⅞"	26⅝"	.146"	836	31	¾" and 1" NGIT	\$22.00

*Add 1½ lbs. if valve is installed.

Cylinder fitted with standard CO₂ valve. If valve thread protection cap and chain are required, add 80c to above prices.

Prices are FOB nearest shipping point shown below, subject to change prior to date of shipment. Prices apply regardless of quantity ordered. Local, state and/or federal taxes are not included.

Cylinders are painted one coat of rust preventive primer and one coat of red finish enamel.

Cylinders are manufactured to ICC 3AA 1800 Specification and packed one to a carton for shipment.

If extra markings are required, add 2c per letter.

Terms of sale — Net 30 days.
