THE ARA

RMi 1400 FD

FEATURES

STACKABLE CANNISTERS—Quick disconnect "sections" control level of soluble product inventory as required by individual locations. Unique auger-agitation system provides the most accurate and consistent product delivery. Hinged lid assures sealed, dry product.

GRAVITY FEED WATER SYSTEM—Exclusive quick recovery, high capacity hot water system. No pressures, regulators, pumps or submerged metering devices. Heating element, thermostat and control switches mounted on lid for simple replacement without removing or draining tank. Non-adjustable thermostat assures proper temperature at all times.

IN-LINE CUP DISPENSER—Originated by RMi and field proven for dependability. Complete visibility for quick cup inventory and ease in loading. Door mounted dispenser is out of the way for machine maintenance and servicing. Totally enclosed for sanitation.

OPEN COMMODITY RACK—Suspended product cannisters and minimum of horizontal surfaces allow ease in cleaning and sanitation. Unique exhaust system assures complete vapor dispersal.

FOURTEEN FULL SELECTIONS—Coffee four ways; tea four ways; decaffeinated coffee four ways, soup and chocolate. Canisters dispense on a first-in, first-out basis for complete quality control. Canisters can be serviced without lifting anything but the covers—cutting down service time substantially. Plus—no long plastic hoses to clean. High speed shock mounted chocolate homogenizer whips the chocolate to a creamy delicious blend.

STAINLESS STEEL CUPWELL—Lever action prevents cup tilts. Rounded corners and easy cleaning features make sanitation quick and sure.

SOLD OUT CIRCUIT—Illuminated "Sold Out" light on coin insert panel. Coin reject circuit avoids customer inconvenience if cups sold out or overflow condition should occur.

LOCKABLE COIN BOX—Large, sturdy metal container easy to lock if required.

RUGGED HEAVY GAUGE CABINET—18 gauge steel with 16 gauge door. Ribbed box girder construction for strength. Every unit receives prime coat plus baked enamel for lasting finish.

ALL COMPONENTS EASILY REMOVED—Key-hole slots plus color coded wiring and plugs for simplified repair. Minimum of tools required.

1400 SPECIFICATION

DIMENSIONS:

72" high	183.0 cm.
