

*Now The  
Super Mark  
Stylestar Series  
In Beige  
Is Available For  
Vending Bank  
Installations . . .  
Thanks To **NARCO***

Narco's standard beige cabinet with the popular Stylestar illuminated sign is ideal for any vending bank installation. And to top off this Pre-Mix Ice-O-Vend® is the attractively illuminated "Cold Drink" filler sign which permits additional flexibility in placement.

Choose either the Super Mark III D or IV D, without ice or with NARCO'S exclusive Ice-O-Vend®. Both are available with either the illuminated, three-dimensional Stylestar sign or the flat, tempered glass non-illuminated sign, also in Stylestar design.

The Super Mark Stylestar series in Beige (with or without ice) is also available to you with or without the illuminated Filler Sign, which can make a vital difference in a vending bank installation. The matching beige illuminated Filler Sign rests securely and attractively on the top of the vender and is flush with the vender door surface.
