BULLETIN NO. 124

DATE: Jan 03

RE: All Hot Beverage

SUBJECT: Beverage Temperature Caution Decal

A new decal has been developed to caution customers that the beverage they will be receiving from the machine is hot. These decals are in the approved international colors for a caution statement – black type on a yellow background. Some cup manufacturers have also added similar caution notes to their cups.

We are installing this decal on all manufactured machines, starting with S/N 22302077xxx, March 19, 2002, and thereafter.

We will supply these decals for existing equipment in the field at no charge for a period of six months from the date of this bulletin. It is highly recommended that this decal be affixed to the front of hot beverage machines in a prominent position to alert customers that they need to exercise caution to prevent possible injury.

These decals can be obtained through your authorized APi distributor or directly from the APi Parts Department in Warminster, PA by ordering P/N 27400091.
