BULLETIN NO. 383

DATE: Jan 03

RE: All Snack

SUBJECT: Cabinet Exhaust Fan

This bulletin is to make you aware of the changes to the cabinet exhaust fans in our equipment. In the past, there was a louver plate welded to the back, upper right corner of the cabinet for use with an optional fan. This louver plate has now been replaced with a blank filler plate. Machines that are ordered with the exhaust fan will have the louvered plate installed at the factory.

This change was effective on April 9, 2001, Date Code 01099xxx.

All the Fan Add-on kits now include the louvered plate. The blank filler plate is removed, and the louvered plate is then installed along with the other items in the kit.

The kits for the Cabinet Exhaust Fans are:

750102-4	Kit, Fan Add-On, w/ Louver, 120 Volt	120 Series/LCM/Studio Models
750102-5	Kit, Fan Add-On, w/ Louver, 230 Volt	120 Series/LCM/Studio Models
750102-6	Kit, Fan Add-On, w/ Louver, 120 Volt	125/127 models
750102-7	Kit, Fan Add-On, w/ Louver, 230 Volt	125/127 Models

The original fan kits, P/N 660441-x are no longer available.
