"THE BONANZAS"

"THE BONANZAS"—Pre-Mix Console Dispensers

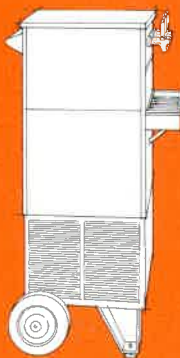

Versatile console unit, available in two models—
Normal Capacity and High Capacity.

COOLING SYSTEM	Dixie-Narco's unique, sealed water bath system with aluminum chips, eliminates "gurgling" water agitators, and provides high-performance cooling with minimum of maintenance. All internal fittings have been eliminated by using continuous lengths of stainless steel tubing for product lines.	
INSULATION	Cooling tank completely surrounded by "foamed-in-place" polyurethane insulation. Creates stronger, extremely rigid cabinet walls. Reduces heat leakage and improves cooling capacity.	
REFRIGERATION SYSTEM	High-performance refrigeration system with balanced condenser and Tecumseh compressor.	
INLET LINES	May be brought in from back or either of two sides.	
DRIP TRAY	Non-breakable, super-tough, plastic drip tray easily removed for cleaning. High-polish, stainless steel used for cup drain grid snaps in place.	
VALVES	Attractive, high-style, self-closing dispensing valves mounted in place and connected. Product identification labels easily mounted or changed.	
LEVELERS	Leveling screws included as standard equipment.	
SPECIFICATIONS	BONANZA 450	BONANZA IV
APPLICATION	For Normal Capacity Duty	For High Capacity Duty and More Rapid Recovery
COLDEST DRINK	32° F.	32° F.
DIMENSIONS	Height 37¾", Width 16½", Depth (with tray) 21½".	
SHIPPING WEIGHT	Approximately 285 pounds	285 pounds

OPTIONAL ACCESSORIES

W-4 Four-Wheel Pushbar Kit.
Four 8" rubber-tired wheels and attractive pushbar handle; makes unit completely mobile.

W-2 Two-Wheel Pushbar Kit.
Two 8" rubber-tired wheels, plus two heavy-duty metal bracket legs; with attractive pushbar handle.

L-1 Four attractive 6" tapered legs with leveling screws. Legs screw into regular leveling screw holes in base.
