**Low Profile**

Allows it to be placed in more locations such as the check out area or end cap.

**No Doors**

Consumer can select product from a rotary cooler while holding other items versus trying to open a door with their hands full.

**Rotating Shelves**

Attracts attention and will stimulate beverage purchases while providing maximum product facings.

**Coca-Cola Exclusive**

The competition has nothing to compare to this innovative open air design which is proprietary and patented by Coca-Cola.

**Five Point Roller System**

Even weight distribution creates for cabinet stability. Rollers allow for easy cleaning under and behind the unit.

**Dual Vertical Lamps**

Enhanced product visibility and merchandising.

**Large Glass Viewing Windows**

Opens for ease of loading and then can be latched shut when completed. Consumers can see the entire product offering which will help enhance brand awareness.

**Durable Design**

Dent resistant design makes it less susceptible to damage from shopping carts and floor buffers.

**Small Footprint**

Its 29" wide and 31" deep footprint makes it perfect for locations with space limitations.

IDEAL FOR

Mass merchandisers | Chain supermarkets | Chain fast food | Sandwich shops  
High traffic grab and go spots | Deli or salad bar | Cafeteria line  
Travel plaza's, news stands, airport gift shops | End aisle front of store | Points of interruption
