

DIXIE-NARCO

Service Bulletin # 160

Date: June 22, 1973

MODEL: All Serpentine
All Adaptables
All Automatics

SUBJECT: Amp Lok Contact Replacement Kit for Electrical Plugs
and/or Caps.

REASON: To provide a Replacement "Lead" so that the Amp Lok contact
can be conveniently replaced if broken or damaged.

ORDER AS: B/M 172,010,500.04 Amp Lok Contact Replacement Kit.

- DO THIS:
1. "Cut off" damaged contact.
 2. Strip the wire 1/4 inch.
 3. Insert the stripped end into the Butt Connector
and "Crimp".
 4. Push Amp Lok contact into position in Plug or Cap.
Now, pull sharply on the Lead to make sure that
Contact is locked in position.

NOTE: See Locking Feature (Fig. 1).
