Service Bulletin

213

Date: January 5, 1979

MODELS: All OPM-3 & OPM-4 Office Post Mix Venders

SUBJECT: Free Vend (Direct Power) Jumper

REASON: To provide direct 24 volt power to OPM valves for free vend without use of coin return lever or free vend harness or switch. Drink is not timed.

ORDER AS: A225,000,100.03 Free Vend Direct Power Jumper

KIT CONSISTS OF: Above Jumper Plus Service Bulletin #213

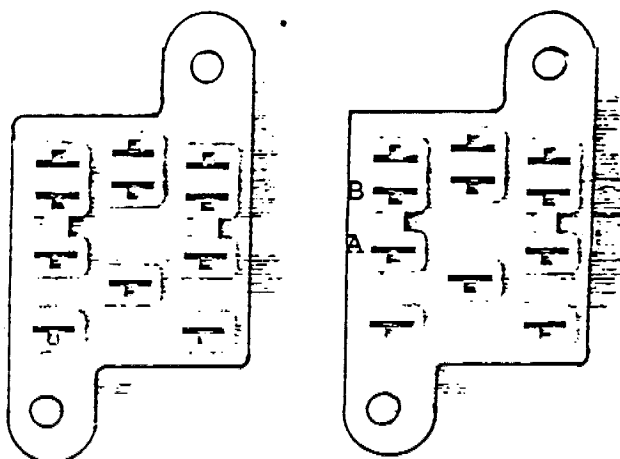

TO INSTALL, DO THIS:

1. Remove pulse relay & vend relay from top of relay box.
2. Remove timer relay from inside relay box.

NOTE: The above relays are not required when using this direct power jumper.

3. Put one end of jumper in vend relay socket at terminal "A" shown below and other end in terminal "B".

"A" is the common of vend relay Sw2 and "B" is normally open of vend relay Sw2. This will send 24 volt power to valve without the use of relays.
