MODEL: All Serventine Can Vender
Service Bulletin # _____
SUBJECT: Can Stop Guard For The Can Retainer

REASON: To provide a can stop guard, with clips, to prevent jackpotting.

ORDER AS: BMI69,012,400.04 - Can Stop Guard Kit.

KIT CONSISTS OF:

| | | |
|---|----------------|----------------|
| 1 | A2310.06 | Can Stop Guard |
| 2 | 900,901,890.01 | Clip |

LOCATION: Front view of the Can Retainer is shown with the Can Stop Guard and clips installed.

The Can Retainer is located directly above the Vend Mechanism. This is the area from which cans are dispensed.

- INSTALLATION:
1. Slide Can Stop Guard onto Metal Flange of Retainer as shown, with lip of Guard projecting outward.
 2. Secure the Can Stop Guard, with the Clips (1 Clip each side), to the flange, of the Can Retainer, as shown.
 3. On the backside of the clips there can be some sharp edges. "Bend Them Down."
 4. Use the Can Stop Guard ONLY on those columns from which cans are jackpotting.
