ORDER AS: B/M275,010,400.04 6 oz. Juice Can Kit

KIT CONSISTS OF: 1 C275,010,300.03 Column Wall - Right
(For 1 Column) 1 C275,010,200.03 Column Wall - Left

MODEL: DNCB 240/138-5, -6 or DNCB 320/184-7, -8 Both 1 1/4" Deeper

ORDER AS: B/M276,010,100.04 6 oz. Juice Can Kit

KIT CONSISTS OF: 1 C276,010,200.03 Column Wall - Right
(For 1 Column) 1 C276,010,100.03 Column Wall - Left

MODEL: DNCB 276/162-5, -6 or DNCB 368/216-7, -8 Both 1 1/4" Deeper

ORDER AS: B/M278,010,100.04 6 oz. Juice Can Kit

KIT CONSISTS OF: 1 C278,010,100.03 Column Wall - Right
(For 1 Column) 1 C278,010,200.03 Column Wall - Left

MODEL: DNCB 440/252-7, -8 1 1/4" Deeper

ORDER AS: B/M267,012,800.04 6 oz. Juice Can Kit

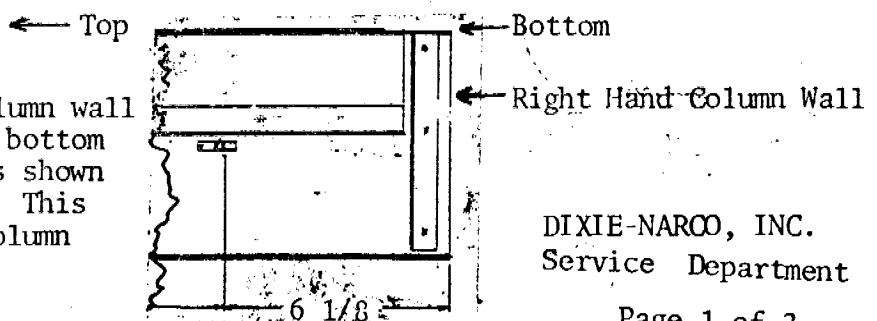

KIT CONSISTS OF: 1 C267,013,000.03 Column Wall - Right
(For 1 Column) 1 C267,012,900.03 Column Wall - Left

TO INSTALL DO THIS:

1. Move Bottle Guide out of way to rear of column.
2. Locate the "clips" which are welded to the back side of right kit wall. (Large flange is at rear of kit wall).
3. Align the "clips" with the existing slots in the right stack wall. There are 2 upper and 2 lower slots in each stack wall. Use the lower slots at each location for the right kit wall. Push into position (clip to slot) and secure.
4. To install left kit wall, repeat 2 and 3, using the upper slots.
5. Adjust sold out paddle by bending upward enough so that 6 oz. cans in kit walls will turn sold out lamp off.

IDENTIFICATION INFORMATION:

The lower part of a right hand column wall is shown. The dimension from the bottom to the first clip is 6 1/8" and is shown to assist in part identification. This same dimension on the left hand column wall is 8 1/8".

DIXIE-NARCO, INC.
Service Department

SUBJECT: 6 oz. Juice Can Kit - Single Depth Cans

REASON: To provide a kit to dispense 6 oz. juice cans from narrow columns of DNCB 1 1/4" deeper red cam dual adaptables.
