Service Bulletin # 268

Date: June 8, 1984

MODELS: 1 1/4" DNCB - Narrow Columns Only

SUBJECT: Adjustable Cam for Narrow Column Vend Motors only.

REASON: To provide a Cam which has an adjustment slot for the 10 oz. NR PLB (Bottle).

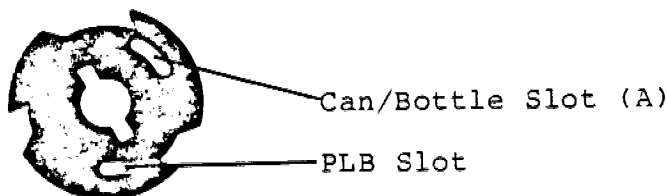

WHEN TO USE THE

ADJUSTMENT SLOT: Use the adjustment slot PLB when the vend rotor does not travel far enough to vend the front bottle.

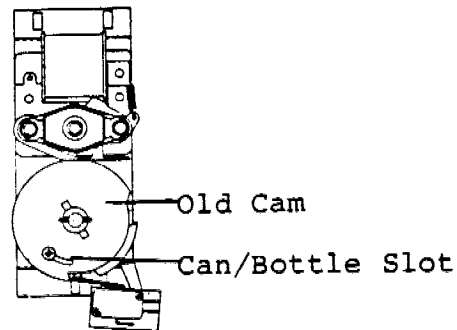

BEGINNING SERIAL NUMBER: 0001-2735 - Installed on first narrow column motor only.
0001-2736 - Installed on all narrow column motors.

ORDER AS: Part #801,804,290.01 - Cam

1. As venders are produced, they will continue to be shipped set for 12 oz. cans. That is Can/Bottle slot, A, Fig. 1 will be used. The PLB Slot is an added feature.
2. To adjust or install a new cam - Unplug the vender.
3. When vending the 10 oz. NR PLB (bottle), narrow column it may be necessary to remove the screw from slot A, rotate the cam and install the screw in Slot PLB. By doing this, the vend rotor will travel farther. If a new cam is needed, replace the old cam with the new cam and use the outlined procedure to install.
