Service Bulletin # _____

311A

Date: January 21, 1987

MODEL: DNCB CC Coke Venders

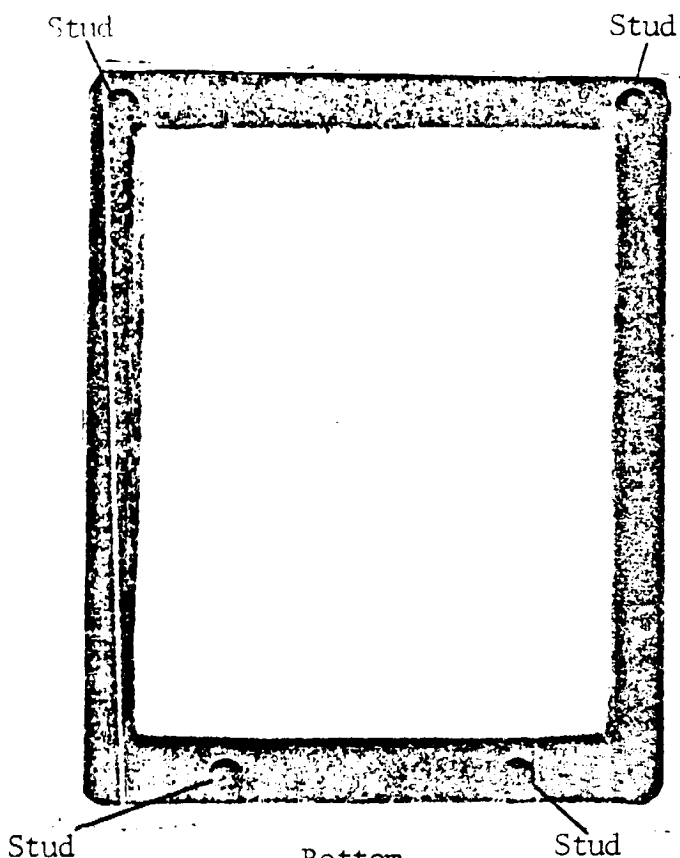

SUBJECT: Installation
Maka Validator
Model: NB10 using NB15A nose piece.

REASON: To provide parts which will enable Coca-Cola bottlers to install subject validator in the New DNCB CC Coke Venders.

PARTS NEEDED:

1	A432,010,010.13	Validator Mounting Ring (Fig. 1)
4	900,800,500.01	Keps Nut 8-32
1	B432,050,470.03	POS Window Retainer (Fig. 2)
2	901,805,690.01	Stand Off 5/16

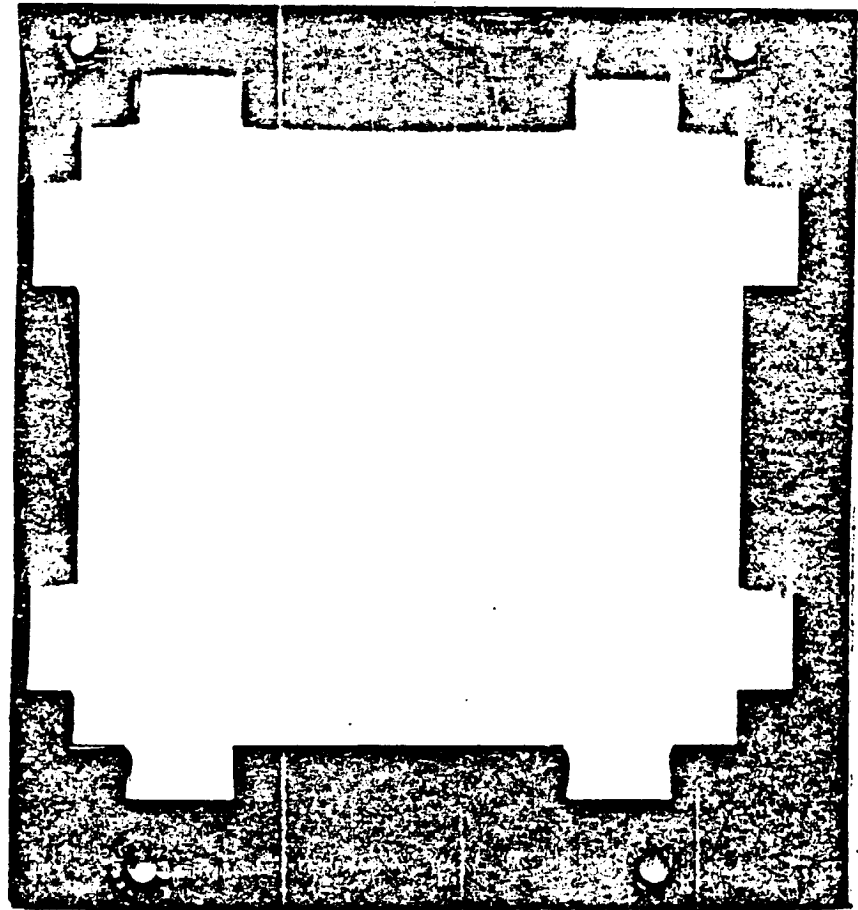

- DO THIS:
1. Remove the Validator cover plate from the vender's Main Door.
 - 2a. Remove the two (2) Coin Insert Retainers - Fig. 3.
 - b. Replace these with POS Window Retainer - Fig. 2.
 - 3a. Some Venders will have a Coin Insert Retainer which is almost identical to Fig. 2.
 - b. If the Vender's Serial Number is not 0001-2967 or higher, replace the Retainer.
 - 4a. Install the Validator Mounting Ring (bottom down - Fig. 1) in the opening from which the Validator Cover Plate was removed.
 - b. Once inserted, install four (4) keps nuts (as spacers) on top studs and two (2) 5/16 Stand Off (as spacers) on the bottom studs.
 - 5a. From the rear of the Main Door, align the nose piece of the Validator with the Validator opening, and push through.
 - b. Align Validator holes with Mounting Ring Studs and secure Validator with Keps Nuts.
