Service Bulletin # 325

Date: August 14, 1987

MODELS: All Circular Coke - Landscape

SUBJECT: Revision of Coin Insert and Associated Parts

BEGINNING SERIAL NUMBER: 0001-2996 For Revised Coin Insert and Parts

REASON: The Coin Insert was revised for two reasons, (See Figure 1), namely,

- 1a. To change to a 2 piece plastic coin chute i.e., with a removable cover.
- b. The chute is adjustable from left to right i.e., the chute's lower screw hole is slotted.
2. To change the coin reject arm so that it rides in a track thus resulting in a more positive operation.

INTERCHANGEABILITY:

1. The plastic coin chute is not interchangeable with the metal chute on the prior coin insert.
2. The coin reject arm is not interchangeable with the coin reject arm on the prior coin insert.

IMPORTANT: To obtain the plastic coin chute or the improved coin reject arm for venders with serialization under 0001-2996 the new coin insert with plastic coin chute and the improved coin reject arm would need to be ordered.
